

**REMARKS**

The specification has been revised to conform to the priority claim information in parent application 09/533,798.

Claims 1-33 have been canceled and new claims 34-53, directed to the same subject matter, have been introduced.

The following table illustrates the relationship between original claims 1-21 and 26-33, and new claims 34-53. The table also illustrates the support provided at least by the original claims for the new claims. No new matter has been introduced, and entry of the above claims is respectfully requested.

New claims 34-53 are believed to correspond to the election, with traverse, of Group I, claims 1-21 and 26-33, as set forth in the replies filed March 22 and June 5, 2006.

Applicants comments and arguments in those replies are expressly adopted and reiterated as part of the instant submission. However, Applicants traversal of the restriction between Group I (claims 1-21 and 26-23) and Group II (claims 22-25) is withdrawn with the cancellation of claims 22-25.

Otherwise, Applicants' election with traverse of the species of "SEQ ID NO:5" for the 5T4 antigen in original claims 1-21 and 26-33 is now applied to new claims 34-53. In new claims 43-53, the same sequence is elected for the 5T4 antigen in each of the two vectors.

Additionally, Applicants' election with traverse of "MVA" as the poxvirus vector in original claims 1-15 and as each of the two vectors in original claims 16-21 and 26-33 is now applied to new claims 34-42 and 43-53, respectively.

Furthermore, Applicants respectfully submit that claims 34-53 read on the elected species, with claims 34-44, 47-49, 52, and 53 being generic to the elected species.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 858-350-6100.

Respectfully submitted,
